

- All service should be performed by qualified personnel - power supply to be disconnected prior to installation.
- Connections made must comply with local regulations and the national electrical code. Contact Solera for additional information on installations.

Installation Instructions: DOMI

Make all the necessary power wire connections in the junction box.

Position the casted housing/lens assembly over the center of the junction box. Secure to the rectangular vertical mounted junction box with the supplied qty (2) screws.

ADDITIONAL NOTES:
If mounting on walls with rough or uneven surfaces, silicone must be applied around the edges of the housing between wall and the fixture.
